

# Pumps and Pumping Workbook

## WORKBOOK CONTENTS

The Human Factor.....	2
Activity 1 - Equipment Criticality.....	4
Activity 2 – FMEA System Level.....	6
FMEA Component Level.....	8
Activity 3 - Setting Reliability Standards .....	10
Calculating Availability / Uptime .....	11
Downtime and Failure Costing Spreadsheets.....	12
Human Error Rates.....	15
ACE 3T Standard Operating Procedure <i>Example</i> .....	17
Risk Identification and Analysis - Template 1 .....	20
Risk Treatment Schedule and Action Plan - Template 2 .....	21
Risk Assessment Matrix.....	22
Activity 4 - Shaft Quality Control for Bearing Reliability.....	23
Using ACE 3T Accuracy Controlled Procedure .....	25
Example Accuracy Controlled Enterprise 3T (Target-Tolerance-Test).....	26
International Tolerance Grades Table .....	46
Activity 5 – Turn Inspection Procedure into an ACE 3T Procedure .....	47
