Precision Maintenance Program for Machinery Training Course Workbook

CONTENTS

Extracts on the Causes of Equipment Failure.....	2
Activity 1 Exercise – Clean Lubricant	3
Activity 2 Exercise – Accurate Fits.....	4
Activity 3 Exercise – True-to-Centre	5
Activity 4 Exercise – Distortion-Free	6
Activity 5 Exercise – Forces into Rigid Mounts	7
Activity 6 Exercise – Accurately Aligned Shafts.....	8
Activity 7 Exercise – High Quality Balancing	9
Activity 8 Exercise – Least Vibration.....	10
Activity 9 Exercise – Correct Fastener Tension	11
Activity 10 Exercise – Accurate Tools and Test Equipment	12
Activity 11 Exercise – In-Spec Parts	13
Activity 12 Exercise – Precision Technique.....	14
Activity 13 Exercise – Remove Failure Causes	15
Creative Disassembly Inspection and Record Sheet.....	16
Activity 14 Exercise – Prove the Quality	17
Activity 15 Exercise – ACE Work Quality Assurance.....	23
ACE 3T Standard Operating Procedure Example (Pipe Flange)	24
Activity 16 Exercise – Introduce Precision Maintenance.....	29
Precision Maintenance Introduction Program Example	32
